News From Headquarters

October 10, 2018 — President Donald Trump signed the bipartisan FAA reauthorization bill passed by both the Senate and House of Representatives last week. The legislation provides stability for the FAA and ensures that ATC privatization and user fees will likely not happen for at least the next five years.

“This legislation is a great victory for general aviation, and it would not have been possible without dedicated EAA members making their voices heard on this issue,” EAA CEO and Chairman of the Board Jack J. Pelton said. “The long-term stability this provides for the FAA will allow the agency to carry out NextGen programs, invest in new technology, and modernize instead of privatize — all of which are positives for the GA community.”

ADS-B Rebate Program

On October 12, 2018, the FAA restarted the ADS-B Rebate Program. The program will end promptly on October 11, 2019 or when the available rebates are all claimed, so act soon.

The Program will follow the same guidelines as the previous rebate program.

See the faa.gov website for program details.

Young Eagles Report

Project Updates

There was not a Young Eagle flight this month. The flight was canceled due to Weather.

No project updates at this time.

Next year there will be a new website to register Young Eagles.

We had a rough year with the Young Eagles.

The weather was not very cooperative.

I look forward to next and introducing more young people to their first GA flight

If you know if an young person between the ages of 8-17 that would like to fly please give them my email address and have them send me and email.
